

Session Program

8–12 Sept 2026

Forum Acusticum 2026

***A22.06 Passive Acoustic Monitoring (PAM) for Biodiversity,
Ecosystem Assessment and Ship noise***

Tuesday 8 September

15:20

A22.06 Passive Acoustic Monitoring (PAM) for Biodiversity, Ecosystem Assessment and Ship noise: S473

Session | Location: Messe Congress Graz, Galerie B | Conveners: María Campo-Valera, Paolo Diviacco

15:20–15:40

In-Field Setup to study the Effects of Underwater Noise on Marine Fouling Community

Speaker

Giovanni Zambon

15:40–16:00

Long-term acoustic monitoring in the deep Mediterranean: the INFN-LNS cabled infrastructure and the multidisciplinary observatories

Speaker

Abdelghani Idrissi

16:00–16:20

Temporal and Environmental Drivers of Soundscape Composition in Galway Bay: An Ecoacoustic Analysis of Passive Acoustic Monitoring Data

Speaker

Conor Byrne

16:20–16:40

Multi-probe Analysis of the Marine Soundscape: Approaches and Results from the VONGOLA Project

Speaker

C. De Maria

16:40–17:00

Underwater radiated noise level database collected in shallow water in Baltic Sea

Speaker

Valtteri Hongisto

17:00
